FERRARI: THE SPREAD IS THE STORY.

PISTA SPIDER

One model, three valuation tiers.

The \$733K gap between September's 907-mile and 19k-mile Pista Spider results is a direct reminder that a model average can hide the most important information.

FRONT-ENGINE V12

Bid levels are rising, but asks still matter.

The 812 GTS and F12 high bids suggest substantial demand, while the unmet reserves show the gap between seller expectations and executable public pricing.

599 GTB

Repeated observations are improving price discovery.

The 599 market increasingly rewards clean histories, strong colors and records while discounting damage and modified examples more visibly.

METHODOLOGY

Sold results and high bids are tracked separately.

Public transaction sources include Bring a Trailer, Hagerty Valuation Tools, CLASSIC.COM and major auction houses.

"RNM" means reserve not met and is shown as price-discovery context, not as a completed sale. Data cut-off: September 30, 2026.
